7. Clarification

	Reference	CONCERN	CLARIFICATION/RESOLUTION
1.	Section VII. Technical Specifications	Requested to consider the input voltage between 85-265 volts and the specification of Light Color: Daylight as long as the Lumen Output is the same.	The original requirement is retained.
2.		Should we also place a sticker on the light bulb itself?	The TWG representative reiterated that the sticker or label is located on each box not the item.

By Rule, all other related provisions in the Bidding Documents correspondingly affected by these amendments are likewise deemed amended to conform to this Bid Bulletin.

Amendments made herein shall be considered an integral part of the Bidding Documents.
