PREBID CONFERENCE
Public Bidding No. 18-293-2
UPS System for LRTA

Mr. Tubon clarified that it is the responsibility of the LRTA to make themselves available during the delivery period to ensure the delivery will not be delayed. Engr. Avila clarified that as long as the delay is not caused by the supplier and delay is justified, the liquidated damages may be requested to be waived. SECTION VII Mr. Tubon said that an additional column, "Actual Offer", shall be added. A prospective bidder clarified that if the specification is not indicated in the brochure, can other evidence be submitted. Engr. Avila answered in affirmative as long as the evidence to be submitted can be verified. The following were clarified: > The 1 hour back up time at 60% for the battery will be clarified thru a bid bulletin. > Upon clarification of a prospective bidder, TUV SUV Tested is the requirement for the efficiency. > A prospective bidder asked if a third party certification in lieu of a TUV can be accepted. TECHNICAL SPECIFICATIONS > The Flywheel compatible is optional. > A prospective bidder asked for the time frame of the charging of the battery. > A prospective bidder asked what is the unit required for 3.2 in the Inverter Shortcut Circuit. > The prospective bidders asked for clarification of the Battery Bank requirement. The requirement of 100 Ah (minimum) is conflict with the battery requirement of the UPS. > A prospective bidder raised that the Power/Quality Analyzer refers to a specific brand. The prospective bidder asked if the requirement can be outsourced to a third party. Engr. Avila emphasized that the requirement is only minimum. However, he said that the concern will be discussed by the BAC. All the clarifications raised shall be addressed thru a bid bulletin. TERMS OF REFERENCE No highlights. No highlights. **BIDDING FORMS** II. OTHER DISCUSSIONS None. OTHER MATTERS ATTACHMENTS None. Having no other matters for discussion, the meeting was adjourned at ADJOURNMENT 12:21 PM
