#3231513-SFT-001	Business function specific software	AOS-0031	Modern Service Management Cloud Success Plan for Azure	When you move a service to the cloud, updating your processes and shifting to a Modern Service Management approach is required. For example, are the accountabilities clear between Engineering/Dev and Operations? Are you confident that your Operations has documented the dependencies and supporting service that are required to manage a Service in the Cloud? Are you ready for a Cloud Service Major Incident? Are you ready to be agile with deployments in an Evergreen Service model while mitigating the risks and concerns called out by Operations? Is your Service Desk going to be impacted? We created this solution in order to help customers like yourself avoid learning through trial-and-error mistakes, and instead integrate our recommended practices with your existing business and IT processes.	709,837.14	
#3231513-SFT-001	Business function specific software	AOS-0032	Modern Service Management Cost Optimization for Azure	Enterprises are increasingly adopting the public cloud for its agility and flexibility. Microsoft Azure provides a multitude of services and capabilities that enterprises assemble like building blocks to address a wide array of workloads and applications. Managing and optimizing cloud expenditures is crucial for effective and efficient usage of cloud resources. The goal of the Cost Optimization for Azure workshop is to enable you to holistically understand cloud financial management and establish the right approach to manage and optimize your cloud expenditures through a series of sessions covering key topics which underpin Cost Management and Optimization on Azure. Furthermore, information collected throughout the engagement is exploited to provide a Cost Management Policy document.	1,352,070.72
